[Mark a Task as Not Applicable \(N/A\)](#)

[Admins](#)

[Complete a Task](#)

## Introduction

*Checklists* help admins and agents stay in compliance by tracking tasks that need to be completed on a transaction. *Tasks* are items on a checklist that represent documents or actions that need to

be uploaded or completed.

*Checklist Templates* are set up by an admin for use across the company's transactions. Once a *Checklist Template* is set up, it can be added to transactions manually or, preferably, automatically based on rules defined by an admin.

Once a checklist has been added to a transaction, it can be refined and altered to be specific to the transaction it was added to (and will not impact the template it was based on).

Agents and admins may check off tasks on transactions to track and communicate the status of each task. Tasks can only be checked as fully completed by admins, while agents can mark tasks as done (*Agent-checked*) or not applicable (N/A) to indicate they're ready for an admin's review.

Here is an example of a typical task office's task workflow:

- An agent marks a task as either done  (*Agent-checked*) or Not Applicable  (N/A).
- An admin [filters for Agent-Checked tasks on the Tasks page](#) to review tasks marked as done or not applicable.
- From the *Tasks Page* or while viewing a transaction, an admin checks a task to mark it as completed  or un-marks the agent's check if they feel the task hasn't been fulfilled.

Once an admin checks a task, the task is considered fully complete and will update the transaction's *Checklist Completion Status*.

## Manage Transaction Checklists

[Add a Checklist](#) 

**Who can do this?** Agents and admins with permission to *Assign checklist templates to transactions*.

When a checklist isn't [auto-assigned](#) to a transaction, it can be added manually.

 3:18

To manually add a checklist to a transaction:

- 1 From the transaction's *Checklists* area, **click** .

Search address, mls, agent, seller, buyer

**+ Listing**

- 2 Click [delete] to confirm. The checklist will be deleted from the transaction.

Deleting a checklist from a transaction will only delete the checklist from that particular transaction and will not impact the *Checklist Template*.

## Manage Transaction Tasks

### Add a Task

**Who can do this?** Admins with permission to *Fully manage checklists and templates*.

To add a new task to a checklist:

- 1 From the bottom of your desired checklist in the transaction's *Checklists* area, click [Add Doc Name or Task].

The screenshot shows the Paperless Pipeline interface for a transaction titled "234 Arrow Road". The left sidebar contains navigation options: View Transaction, Edit Transaction, Upload Docs, Assign Docs, New Offer, Transaction History, Received Emails (0), and Download Transaction. The main area displays the transaction details, including the address "234 Arrow Road", status "Pending", MLS # "985674563", side "Listing", and location "Paperless Real Estate". The "Checklists" section shows a checklist with 72% completion. The checklist items are: Cooperating broker's commission agreement (2/1), Commission disbursement authorization (2/10), Extension of closing addendum (if applicable), Repair addendum (if applicable), Buyer Preapproval (2/11), and Show completed tasks (checked). A red box highlights the "Add doc name or task" button at the bottom of the checklist, with a red arrow pointing to it.

- 2 Type the *Task Name*.
- 3 Click [Save] to add the new task.

You can add URL links to tasks. Links added to tasks are clickable and will open in a new

window.

## Edit a Task's Name

**Who can do this?** Admins with permission to *Fully manage checklists and templates.*

To edit the name of a task:

- 1 From the transaction's *Checklists* area, **hover over your desired task**, and click the [pencil].

The screenshot shows the 'Checklists' section for transaction '234 Arrow Road'. The 'Buyer Preapproval' task is highlighted with a red arrow and a pencil icon, indicating it can be edited. The task is currently marked as '2/11'.

**Checklists** 72% ✓

Betty Stone [hollis+tcystone@paperlesspipeline.com](mailto:hollis+tcystone@paperlesspipeline.com)

- 2 Type the updated *Task Name*.
- 3 Click [Save] to update the task.

## Edit a Task's Visibility

**Who can do this?** Admins with permission to *Fully manage checklists and templates.*

To change who will have access to view and receive reminders about a task:

- 1 From the transaction's *Checklists* area, **hover over the task** and click the [eye].

The screenshot shows the Paperless Pipeline interface for a transaction titled "234 Arrow Road". On the left, a sidebar lists various actions like "View Transaction", "Edit Transaction", and "Checklists". The "Checklists" section is expanded, showing a checklist for "Pending" tasks. One task, "Buyer Preapproval", is highlighted with a red box and a red arrow pointing to its visibility icon (an eye with a slash). The right side of the interface displays transaction details such as "Status: Pending", "MLS #: 985674563", and "Location: Paperless Real Estate".

- 2 Select the appropriate *Task Visibility* option. [Learn more about Visibility Types →](#)
- 3 Click [Set Task Visibility]. Now, only those that have access to the *Visibility Type* you selected will be able to view the task.

The best way to set *Task Visibility* for a task is to set it on the *Checklist Template*. That way, every time the template is used to add a checklist to a transaction, its tasks will already have their visibility set. [Learn how to Set Task Visibility on Checklist Templates →](#)

## Edit a Task's Due Date

### Who can do this?

- Admins with permission to *Fully manage checklists and templates*.
- Agents can edit the due date of tasks set to *Allow Agents to Change a Task's Due Date*

Due dates can be added to tasks as an *Absolute Due Date* - like Tuesday April 12th - or a *Relative Due Date*, which is a due date relative to certain trigger activities.

To set a task's due date:

- 1 From the transaction's *Checklists* area, **click the task's due date**. Or, if a date hasn't been assigned to the task, **hover over the task and click the [calendar]**.

Search address, mls, agent, seller, buyer

Show completed tasks →

Add doc name or task

**+ Listing**

2 Click [Delete] to confirm.

Deleting a task from a transaction will only delete the task from that particular transaction and will not impact the *Checklist Template*.

## Manage Your Checklist View

**Who can do this?** Anyone with access to view a transaction will see any tasks set to a *Visibility Type* they have access to view.

On any transaction, view tasks assigned to the transaction from the *Checklists* area in the left menu. You will be able to view any task set to a *Visibility Type* you have access to view.

The screenshot shows the Paperless Pipeline interface. On the left, the 'Checklists' sidebar is highlighted with a red box and a red arrow. It displays a 'Pending' section with a list of tasks and their completion status (e.g., 2/21, 3/2). A '72%' completion status is shown at the top of the sidebar. The main content area displays transaction details for '234 Arrow Road', including status (Pending), MLS #, side (Listing), location, and listing agents (Betty Stone).

Next to any checklist, click [ ] to show or [ ] to hide the checklist. Pipeline will remember your preference to expand or collapse the checklist whenever you return to the transaction later.

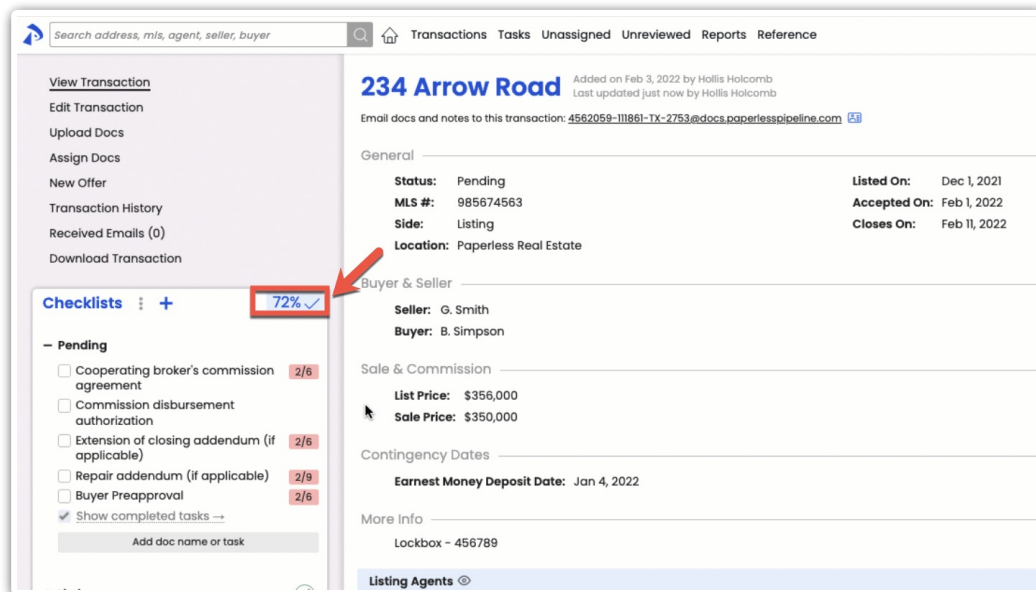

## Show Completion Status as Percentage or Ratio

Use the *Checklist Completion Status* in the upper-right corner of the checklists area to quickly check the status of a transaction's completed tasks (tasks completed by an admin).

Opt to show the *Checklist Completion Status* as a percentage or ratio.

To show the *Completion Status* as a percentage or ratio:

- 1 From the top right corner of the transaction's Checklists area, click the **Checklist Completion** [Percentage ✓] or [Ratio ✓] to toggle between percentage and ratio.

Pipeline will remember your preference to show the *Checklist Completion Status* as a percentage or ratio whenever you return to the transaction later.

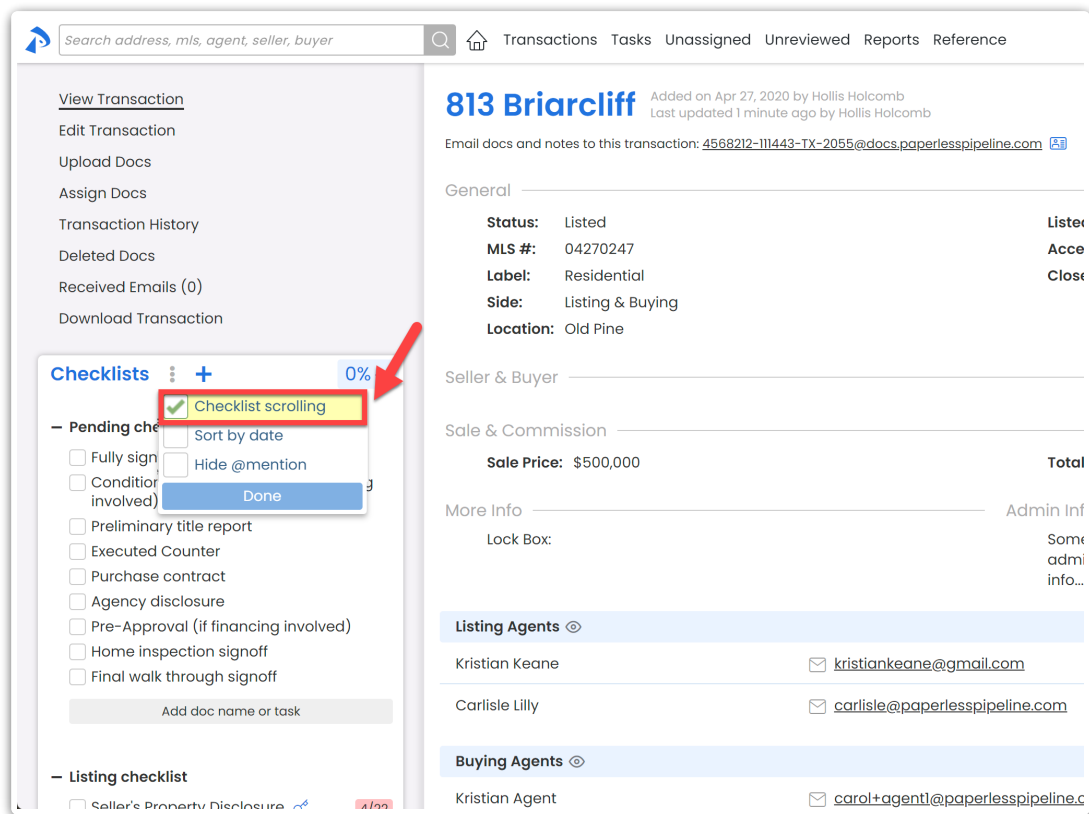

## Turn On Checklist Scrolling

*Checklist Scrolling* lets you choose what tasks and parts of the transaction you're viewing at any given time by allowing you to scroll through the checklists separately from the main transaction page.

*Checklist Scrolling* is useful for managing a long list of tasks, for dragging tasks to messages, and for using [Smart Checklists](#) to identify related docs and tasks.

To turn on *Checklist Scrolling*:

- 1 From the top of the transaction's *Checklists* area, click [ ⋮ ].
- 2 Check the box next to [Checklist scrolling].

3 Click [Done].

Pipeline will remember your *Checklist Scrolling* preference whenever you return to any transaction later.

## Sort Tasks by Due Date

By default, checklist tasks on transactions are shown in the original order set by an admin on the *Checklist Template*.

If you prefer, sort your view of tasks by due date instead.

To sort checklist tasks by due date:

1 From the top of the transaction's *Checklists* area, click [⋮].

2 Check the box next to [Sort by date].

The screenshot shows the Paperless Pipeline interface. On the left, a sidebar lists various actions like 'View Transaction', 'Edit Transaction', etc. The main area displays transaction details for '234 Arrow Road'. A 'Checklists' panel is open, showing a 'Pending' checklist. The 'Sort by date' option is selected and highlighted in yellow, with a red arrow pointing to it. The 'Done' button is visible at the bottom of the checklist. The right side of the interface shows transaction details like 'Status: Pending', 'MLS #: 985674563', and 'Side: Listing'.

3 Click [Done]. Tasks will appear in order by their due date.

 Pipeline will remember your sort preference whenever you return to any transaction later.

## Hide @mention

Make task names easier to read by hiding any @Mention text on checklists. [Learn more about @Mention](#) →

To hide @Mention text on tasks:

- 1 From the top of the transaction's Checklists area, click [ : ].
- 2 Check [Hide @mention].

Search address, mls, agent, seller, buyer

- Click [Done]. The @Mention text will be hidden from your view of checklists on all transactions.

Pipeline will remember your preference to hide or show @Mention text whenever you return to any transaction later.

## Check Off Tasks on a Transaction

Agents and admins may check off tasks on transactions to track and communicate the status of each task. Tasks can only be checked as fully completed by admins, while agents can mark tasks as done (Agent-checked) or not applicable (N/A) to indicate they're ready for an admin's review.

Here is an example of a typical task office's task workflow:

- An agent marks a task as either done  (Agent-checked) or Not Applicable  (N/A).
- An admin filters for Agent-Checked tasks on the Tasks page to review tasks marked as done or not applicable.
- From the Tasks Page or while viewing a transaction, an admin checks a task to mark it as completed  or un-marks the agent's check if they feel the task hasn't been fulfilled.

Once an admin checks a task, the task is considered fully complete and will update the

transaction's *Checklist Completion Status*.

## Agents

Agents check off tasks to communicate to admins when they've finished a task or when the task is not applicable on a transaction.

When an agent marks a task as done or not applicable, the task will no longer appear in the agent's *Daily Task Reminder* email or on their *Tasks List*. The tasks will continue to appear in those two areas for the admin.

## Mark a Task as Done (Agent-checked)

### Who can do this?

- Agents
- Admins without permission to *Fully manage checklists and templates*.

For agents to *Agent-check* a task:

- 1 From the transaction's *Checklists* area, **check the box to the left of the task**. The task will be agent-checked.

The screenshot displays the Paperless Pipeline web application. On the left, a sidebar menu includes options like 'View Transaction', 'Edit Transaction', 'Upload Docs', and 'Checklists'. The 'Checklists' section is expanded, showing a list of tasks under the 'Pending' category. A red box highlights the task 'Extension of closing addendum (if applicable)', which has a checked checkbox. Other tasks include 'Cooperating broker's commission agreement', 'Commission disbursement authorization', 'Repair addendum (if applicable)', and 'Buyer Preapproval'. A progress bar at the top of the checklist section shows '78%' completion. On the right, the transaction details for '234 Arrow Road' are visible, including the status 'Pending', MLS number '985674563', and listing agent 'Betty Stone'.

[Learn more about agent-checked tasks →](#)

### Admin Workflow Tip

When reviewing tasks marked as done by agents, admins may:

- Check off the task to mark it as complete.
- Un-mark the task as *Agent-checked* by clicking the [X] that appears when hovering over the task. If the un-marked task has a due date, it will start being included in the agent's *Daily Task Reminders* or on their *Tasks List*.

### Set a Task as Not Applicable (N/A)

#### Who can do this?

- Agents
- Admins without permission to *Fully manage checklists and templates*.

For agents to mark a task as not applicable:

- 1 From the transaction's *Checklists* area, hold the [Shift] key on your keyboard and click the box to the left of the task.
- 2 When the agent task options appear, click [Not Applicable], then [Done]. The task will be set as not applicable.

- ☐ Mold Disclosure 5/12
- ☐ MLS Information 5/12

**Shift + click**

### Admin Workflow Tip

When reviewing tasks set as not applicable by agents, admins may:

- Check the task to mark it as complete. Tasks marked as not applicable by agents will remain

crossed out to indicate they were marked as N/A, even after fully checked.

- Delete the task to remove it from the transaction completely.
- Un-mark the task as N/A by clicking the [X] that appears when hovering over the task. If the un-set task has a due date, it will start being included in the agent's *Daily Task Reminders* or on their *Tasks List*.

## Admins

For a task to be considered fully complete, it must be checked as complete by an admin.

Once an admin checks a task, the task is considered fully complete and will update the *Checklist Completion Status* of the transaction.

## Complete a Task

**Who can do this?** Admins with permission to *Fully manage checklists and templates*.

For admins to mark a task as fully complete:

- 1 From the transaction's *Checklists* area, check the box to the left of the task.

The screenshot displays the Paperless Pipeline web application. On the left, a sidebar menu includes options like 'View Transaction', 'Edit Transaction', 'Upload Docs', and 'Checklists'. The 'Checklists' section is expanded, showing a list of tasks with checkboxes. A red arrow points to the checkbox for 'Cooperating broker's commission agreement', which is currently checked. Other tasks include 'Commission disbursement authorization', 'Extension of closing addendum (if applicable)', 'Repair addendum (if applicable)', and 'Buyer Preapproval'. The checklist shows a 78% completion status. On the right, the transaction details for '234 Arrow Road' are visible, including status (Pending), MLS # (985674563), side (Listing), location (Paperless Real Estate), and listing agent (Betty Stone).

Admins may also check off tasks directly on the *Tasks Page*. [Learn how to Check Off Tasks on the Tasks Page →](#)
