

# Chrome Scrolling Bug

## PROBLEM

The problem typically results in users not being able to see or access the bottom items in dropdown lists that are long enough to require scroll bars.

## WORKAROUNDS

Here are some workarounds to the problem:

- 1 **Uncheck "Use visual styles on windows and buttons".**(Right-click Computer > Advanced tab > Performance settings > Visual Effects tab).
- 2 **Use a mouse-wheel to scroll.**
- 3 **Use the down/up arrows to scroll.**
- 4 **Use Firefox as an alternate browser.** [Download for free here →](#)
