Sort by Document Label

To sort transaction documents by their labels:

- 1 **Open the transaction.** Then scroll down to the document list.

- 2 Click on the [Label] to sort the documents by their label. Click the icon again to sort in the reverse order.

To learn more about document labels, see [Managing and Using Doc Labels](#)

Documents without a label will not be included in the sort and will remain at the bottom of the list of docs.
