Managing Break Apart Templates

SUMMARY

Break apart templates enable you to quickly apply a standard break apart configuration to a document. This can be helpful if you regularly scan a group of docs into Pipeline in the same order.

Create a Break Apart Template

Break apart templates are created by checking the "Save this as a new template" checkbox when you are breaking an unassigned or transaction doc apart. To create a break apart template:

1 Follow the steps to break apart a doc.

2 Check [Save This as a New Template] to be able to reuse the configuration as a break apart template.
