## Save Time on New Offers by Not Having to Remove Buyer Side Contacts

When initiating a New Offer on a transaction, any buyer-side contacts will no longer be carried over automatically. This means you can now enter fresh buyer contacts on New Offers without the hassle of manually removing old ones.

Buyer-side contacts are defined as those containing any of the following words:

- “Buyer”
- “Lender”
- “Lending”
- “Escrow”
- “Title”

Heads up that we'll be adding more buyer side offer options in the very near future.

## Instantly View Timestamps for Notes & Sent Emails—No Hover Needed

Need to know exactly when messages were received or other actions took place on a transaction **without** having to hover over the date. You can now set the times that actions took place to be automatically visible—no hover needed.

To turn on visible timestamps, scroll down to the *Notes & Sent Emails* section on any transaction, click the Settings dots [⋮], then [Show timestamps]. The system will remember your selection and show (or hide) the timestamps on every transaction.

## Name Your Docs Even Faster!

When naming docs in Pipeline, the dropdown list of your office's Standard Doc Names just got smarter. If your Standard Doc Names have been set up with pre-set Permission Categories, the system can prioritize showing the appropriate doc names when naming docs.

To display the list of docs that match a specific Permission Category, simply select the Permission Category FIRST (before typing the doc name). Then, when you begin typing the doc name, docs matching your selected Permission Category will appear in a section at the top of the doc name list.

[Learn more about Pre-setting Doc Permission Categories for Doc Names →](#)

## Fully Manipulate Your PDF Docs in One Place with Ease

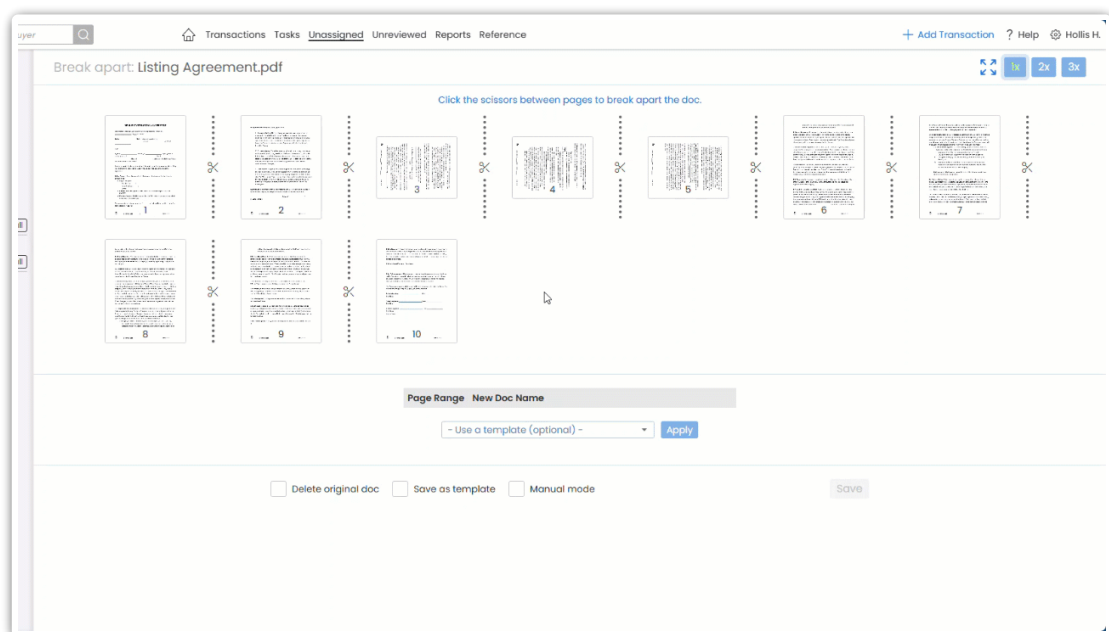

Need to break apart a doc, rearrange its pages, or rotate some or all of the pages? We've got you covered! The Break Apart/Arrange feature now allows you to do all of the above!

To start using the features, go to the same Break Apart page for any transaction doc or unassigned doc like you always have (by clicking the doc's gear icon, then Break Apart). Then:

- To break apart: No changes—you can still click the scissors in between pages to break the doc apart.
- To rotate a page: hover over the page and click the [↻] icon.
- To rearrange: Click and drag a page to its desired new position.

While the system can manage rearranged pages after you start breaking apart and naming docs, we recommend rearranging the pages before you begin the break-apart process. This helps keep your workflow organized, making it easier to navigate through the process without confusion.

## Default Value for Commission Summary Now Available to All Accounts

To help meet recent NAR Settlement requirements and simplify tracking compensation sources, all Pipeline accounts may now set a default value for the *Commission Summary* field. Once set, the default value will automatically populate in the *Commission Summary* field for each new transaction, prompting team members to enter Buying side sources.

Previously, this option was limited to Commission Module accounts.

The *Commission Summary* field is commonly used to store and share compensation details with everyone who has access to the transaction. It allows agents to easily add any negotiated compensation figures or specifics, making them visible to admins for better transparency.

Here's how to set it up:

- 1 Go to [Company Settings](#) by clicking your name in the upper right corner, then [Admin / Settings].
- 2 Scroll to the *Transaction Settings* section and locate the *Pre-filled default value for Commission Summary field*.
- 3 Enter your desired default information and save to apply it to all new transactions.

Pre-filled default value for "Commission Summary" field

**BUYING Side Compensation:**

- \$ or % paid by Seller: \_\_\_\_\_
- \$ or % paid by Buyer: \_\_\_\_\_

**LISTING Side Compensation:**

- \$ or % : \_\_\_\_\_

**REFERRAL Compensation:**

- Name of Referrer: \_\_\_\_\_
- Mailing Address: \_\_\_\_\_
- \$ or % : \_\_\_\_\_

**OTHER FEES/COMPENSATION/INSTRUCTIONS:** \_\_\_\_\_

**Information:** Specify default information you'd like to be added to the *Commission Summary* field of all new transactions. Optionally include placeholders to prompt admins and agents to add specific information. For example:

- Commission Percent -
- Agent Commission -
- Broker Commission -
- Referral Fee -

## Commission Module

### Set a Default Value to Prompt Entry of Buying Side Sources

When managing commissions, you now have the option to distribute Buying Side commission between seller and buyer sources. As a result, the old commission fields have been renamed *Commission (Paid by Seller)*, so that the source is clear.

Buyer-sourced commission can be entered into a new, optional *Commission (Paid by Buyer)* field by clicking [+] next to the *Commission* field.

## Commission Disbursement Authorization is Now Compensation Disbursement Authorization

The term "Commission" has been replaced with "Compensation" throughout the CDA to clarify that it includes various sources of compensation.

You'll see this change in the document name as well as in the fields and labels within the form.

This update will help ensure consistent terminology and a clearer understanding of the complete compensation picture for each transaction.

### Enter Dual Buyers or Sellers Once and Forget It

When there are two buyers or two sellers on a transaction, you can enter them both directly on the *Add* or *Edit Transaction* page. Doing so will automatically add them as contacts on the transaction, saving you the time of entering their information in both places.

To add dual buyers or sellers, from the *Add* or *Edit Transaction* page, click [add buyer/seller contact(s)], then enter their information (address, email, phone, etc.) separated by the word **and**. When the transaction is saved, a new contact will automatically be added for each.

View the **i** tooltip below the Buyer / Seller fields for more details.

## New Date Ranges Give You Instant Access to Transactions Within a Specific Number of Days

Four new relative date range options allow you to easily find transactions that are a certain number of days from the current date:

- Yesterday
- Next 7 days
- Next 14 days
- Next 30 days

Combine your date searches with other search options to isolate the exact transactions you're looking for. And since these ranges are relative to when the search is being run, you can save them as custom shortcuts for speedy access later.

## New Password Requirements Strengthen Your Account Security

We've updated our password requirements to adhere to the latest guidelines recommended by the National Institute of Standards and Technology (NIST). If your existing password doesn't meet the minimum requirements, you'll be prompted to create a new one the next time you log in.

Don't worry, we won't require you to concoct an arbitrary composition of numbers, symbols, uppercase/lowercase, etc. NIST has found that such strict requirements actually **do not** improve security. Ironically, they can do the opposite, leading people to create more uniform passwords to satisfy the criteria, making passwords easier to guess and harder to remember.

### Make the Important Parts of Your CDA Instructions Stand Out

The [1-click formatting tools](#) you've been enjoying when drafting your messages, company announcements, and email signatures are now available on your *CDA Instructions*.

Use the standard formatting icons to easily format and instantly preview visually compelling instructions to the title company or other readers.

Emphasize important information by adding headers, bold or italic text, links, horizontal lines, and bulleted and numbered lists.

### Break Apart: Split and Name Docs While Zoomed In

If you need to get a closer look at a doc as you're breaking it apart, you can now complete the entire process while zooming in on a single page.

You can now split, name, and assign permissions to your docs while you're navigating between full-sized pages. This allows you to specify your docs while taking a closer look at them vs. having to return to the grid view to split and name them, potentially disrupting your workflow.

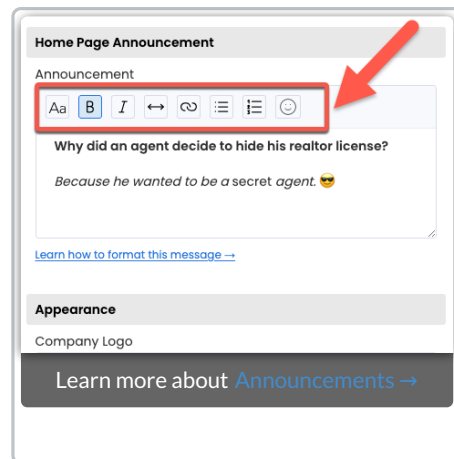

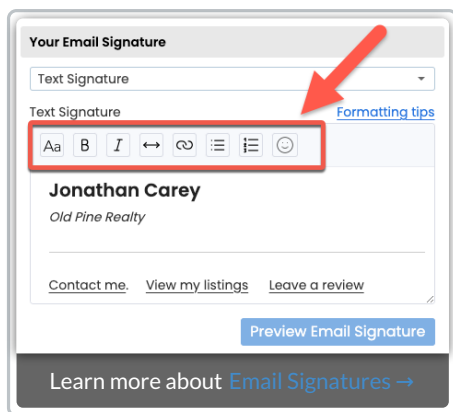

Of course, this zoomed-in method simply serves as an added convenience when needed. You can still break apart docs from the thumbnail grid to take advantage of the bird's eye view.

## Easier Formatting is Now Available in More Places

The formatting tools you've been enjoying in messages are now available in your email signature and company announcements. Create visually appealing signatures and announcements by adding bold text, links, lists, emojis, and more using the standard formatting icons.

## View Past and Future Commission Figures at a Glance

## Only Allow Agents to See Messages on their Side

Need for notes and messages sent by agents on one side of a dual-sided transaction to be shielded from agents on the other side?

Set your account to automatically hide these messages from the other side's agents by turning on *Prevent agents from viewing other side's messages* under [Company Settings](#) .

**Transaction Settings**

- Enable auto-expiration of transactions in Listed status
- Require transaction label
- Allow agents to change transaction status to closed, terminated, and expired
- Prevent agents from viewing other side's messages on transactions
- Only include completed transactions in monthly backups

Transaction name instructions

**i** If checked, agents on one side of the transaction will only be able to view their own messages, non-private messages sent by agents on the same side of the transaction, and messages from admins.

If unchecked, agents will be able to see both sides' non-private messages.

### Duplicate Transaction: The Time-saving Tool You Didn't Know You Needed

Say goodbye to repetitive manual transaction entries. Pipeline's new *Duplicate Transaction* option can streamline your team's workflow in unique and creative ways you won't be able to live without.

Here are a few examples of how duplicating transactions can save time every day:

- **Transactions as Templates:** Create a transaction to be used as a template, containing whatever default information is appropriate for that template's scenario (e.g., *Transaction*

Name: "Sunset Office Listing Template", or "Team Willow - Template"). Include as much or as little info, docs, contacts, checklists, etc. as needed. Whenever that template transaction gets duplicated, its info will automatically be copied over. Then any remaining, transaction-specific information can be added to the resulting transaction.

- **Copy Buyer Offer Transaction:** Duplicate an existing buyer's offer transaction when it falls through to effortlessly copy the transaction.
- **Support a Parcel of Properties:** Save time by duplicating transactions representing a parcel of several properties with nearly identical property information.

To duplicate a transaction: From the [Transaction List](#), click the transaction's gear, then select [Duplicate].

[Learn how to Duplicate A Transaction →](#)

**You should not duplicate transactions when *Listing-side* transactions fall through. Instead, you should create a *New Offer* to copy only the relevant *Listing* info and link the subsequent transaction with the original. [Learn more →](#)**

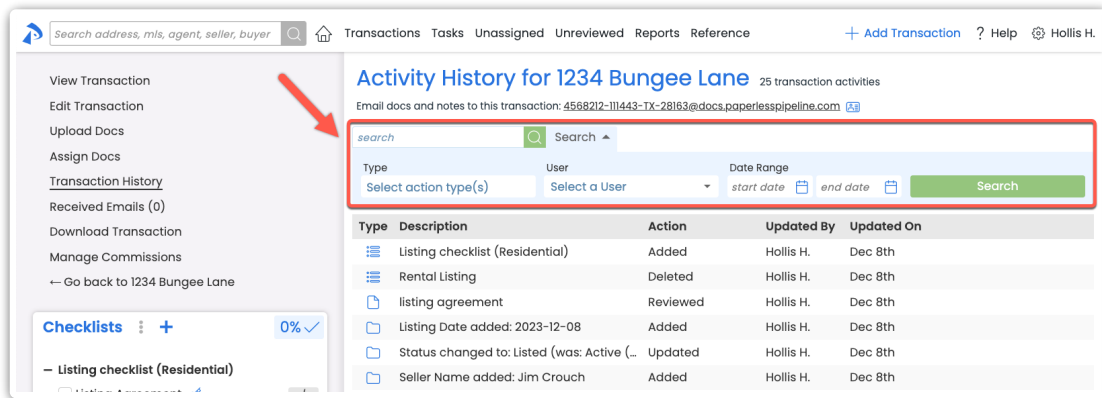

## Instantly Track a Transaction's Progress and Verify Activity

You can now quickly locate the exact actions that have occurred on a transaction, saving the time of having to browse potentially long transaction histories.

To find specific actions, click on [Transaction History] in the left menu of a transaction. Then, use the search filters at the top of the page. You can filter by the type of action, the user who performed it, and/or a date range.

[Learn how to Search A Transaction's Activity History →](#)

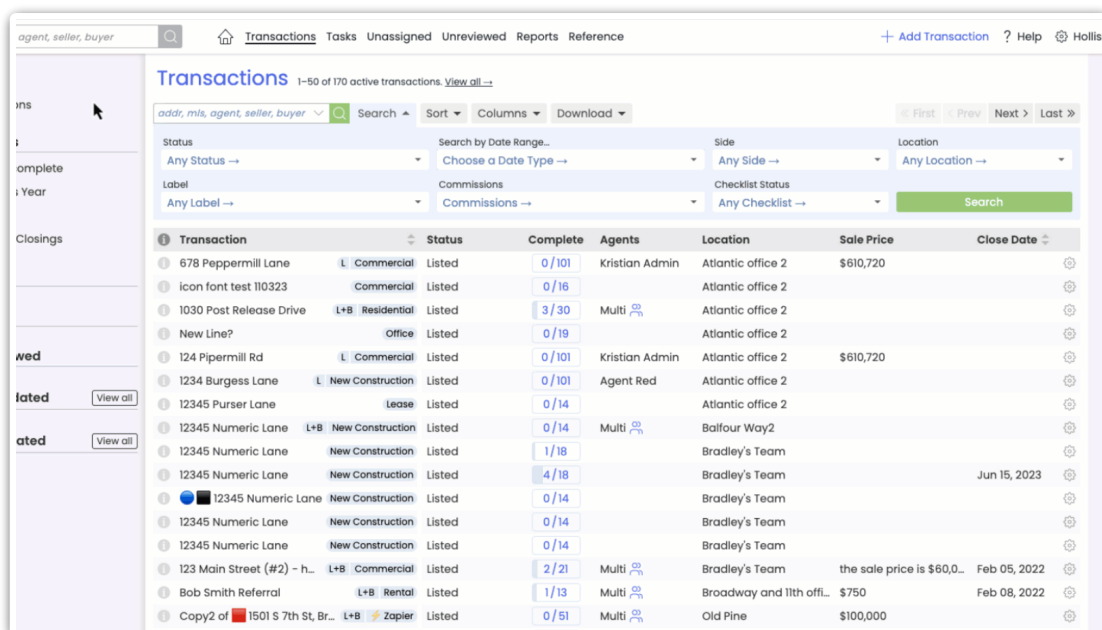

## Save Time By Running Combined Searches in a Single Step

You can now access *Power Search* in the area where it has the most power, and save time in the meantime. *Power Search* has always been at your service in the upper left corner of each Pipeline page, with the resulting search criteria conveniently copied into Transactions – Advanced Search, where you can add additional search criteria, if desired.

But now your *Power Search* options can be accessed directly from Advanced Search, allowing you to *Power Search* and add any additional filters in a single step.

[Learn more about Power Search →](#)

## Spot and Address Important Transactions Instantly with Custom Flags

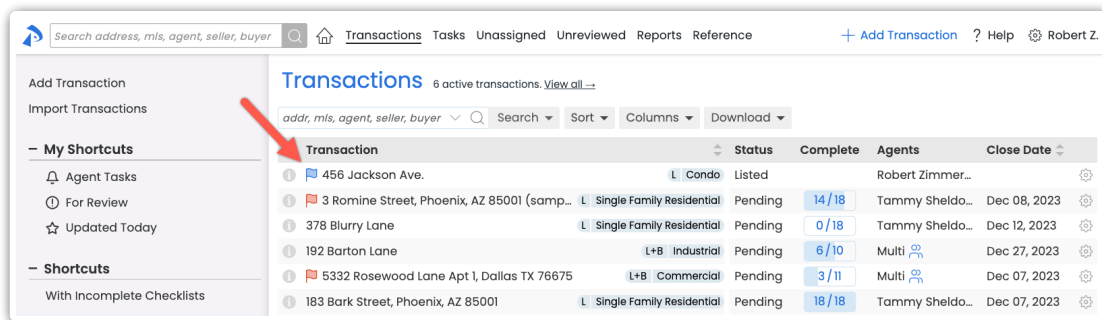

Need to see which transactions were recently added? Which have recently received messages? Which are ready for a certain action? Avoid missing or overlooking transactions that are

important to you by flagging them with your very own custom flags. Transaction Flags can be based on any search criteria that can be defined in the Transaction Search area.

To create a custom flag from the Transaction List, run your desired search, then click [Save Search], choose a flag, name it, and save it.

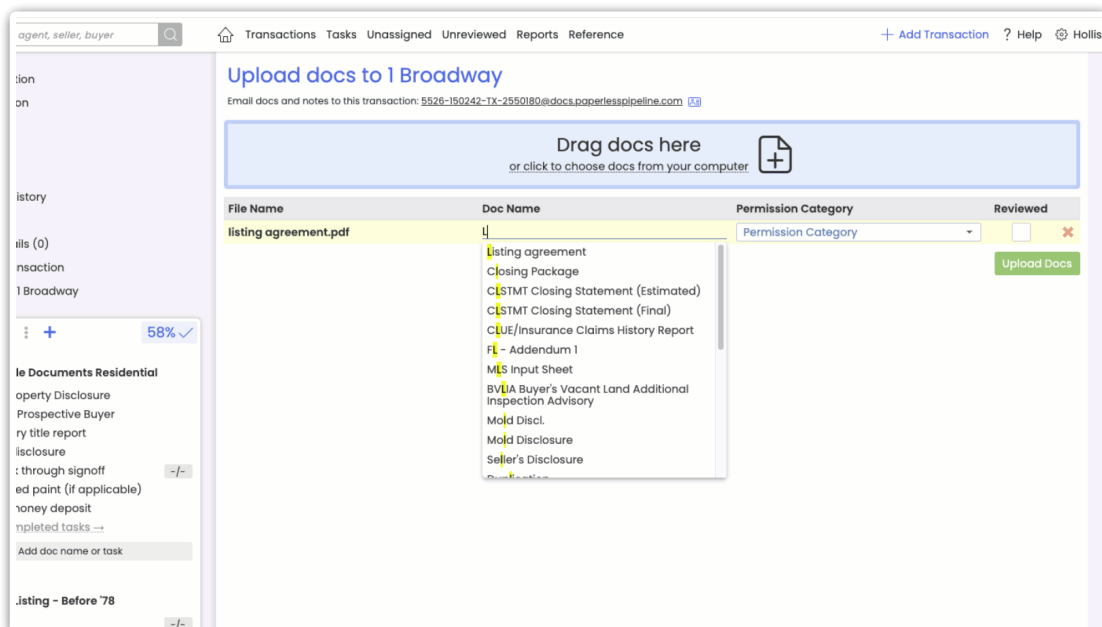

That's it! Transactions matching that criteria will be flagged for you on the Transactions List going forward.

[Learn more about Transaction Flags →](#)

## Automatic Doc Versioning Saves Your Team Typing

Pipeline will now allow docs with duplicate names to be added to transactions. Any duplicate doc name will have a version number appended to the end (e.g., Listing Agreement (2)).

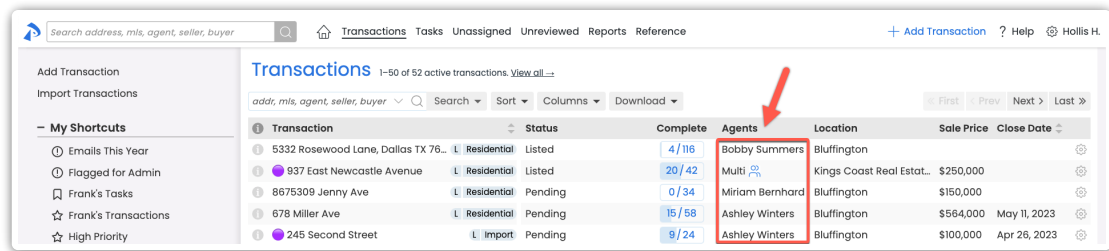

This new automatic versioning of docs does not impact the Company Setting; Prevent duplicate document uploads. That setting is unrelated to this feature and controls whether a doc can be

added when the actual contents of the doc (vs. the doc name) are identical to an existing doc .

[Learn more →](#)

## See a Transaction's Agents at a Glance

You can now view the agent associated with a transaction directly from the *Transactions List* without hovering. When there is more than one agent on a transaction, "Multi" will be displayed, and you can continue to hover to view those agents.

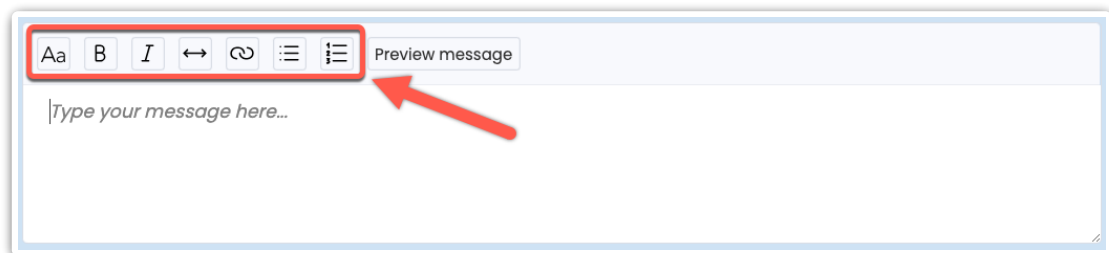

Transaction	Status	Complete	Agents	Location	Sale Price	Close Date

## One-click Text Formatting: Make Important Parts of Your Messages Stand Out

Use standard formatting icons to format text within messages you send from Pipeline – no special markings/markdown needed. This new WYSIWYG (what you see is what you get) editor allows you to format your text with a single-click, and see what it looks like in real time.

Create visually appealing and engaging messages by adding headings, emphasizing important points with bold or italic text, turn text into links, inserting horizontal lines, and creating bulleted and numbered lists.

## Personalize Your Emails with Agent Signatures (for Transaction Coordinators)

Transaction coordinators, you now have the super power of including the desired agent's signature in emails you send from Pipeline, providing recipients with a more personalized experience and appropriate contact information.

To start including agent signatures, turn on *Enable alternate signatures on my messages* from your [Personal Profile](#) .

Next, choose whose signature you want to include when creating a message on the transaction.

## Enter buyers and sellers in one place

Entering the buyer and seller information directly into the transaction input page will now automatically create a contact on the transaction, saving you the time of having to enter the person's information in both places.

To add a buyer or seller, from the Add or Edit Transaction page, click [add seller / buyer as contact], then enter their information (address, email, phone, etc.). When the transaction is saved, a new contact will automatically be created based on the information you entered.

## Final Commission Summary Notes are preserved to ensure accuracy

Once commissions have been managed and finalized on a transaction, the *Commission Summary* can no longer be edited by agents. This helps preserve the state of those notes at the time commissions were run to ensure their accuracy.

Easily track custom information important to your team with optional pre-set and custom fields

### Optional Pre-set Fields

From [Company Settings](#), click to turn on any of the following fields your office needs to track on transactions.

- Earnest Money Amount
- Lockbox Code
- Home Warranty
- Year Built
- Financing Type

### Custom Fields

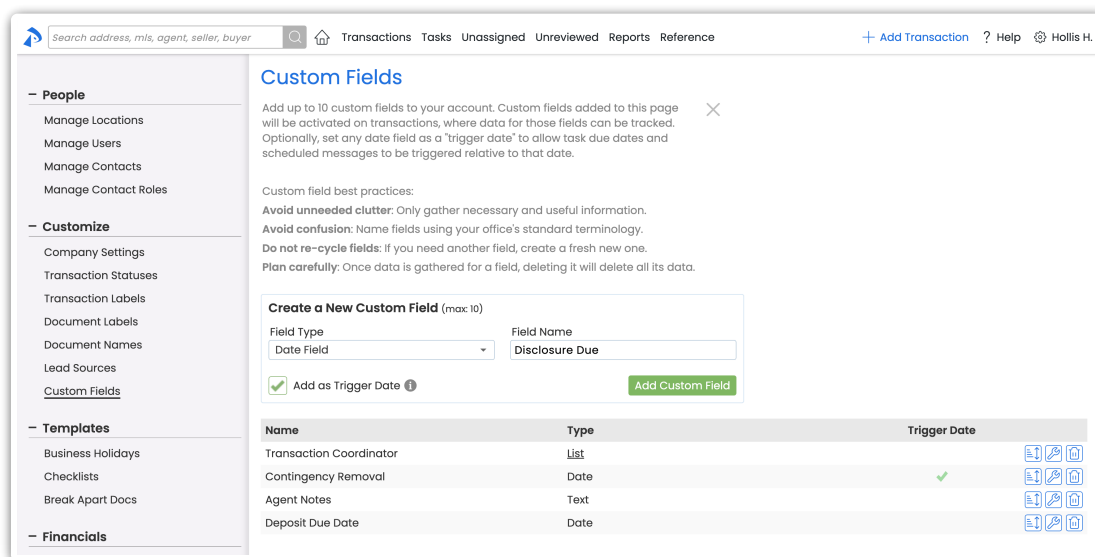

Master admins can now add up to 10 *Custom Fields* to help their team track custom information that doesn't already have a field on transactions. From dates to lists to text fields, use these new fields to cleanly gather and track information that helps your team drive transactions to completion. Any custom date-type field can optionally be set as a *Trigger Date* to allow *Task Due*

Dates and Scheduled Messages to be triggered relative to that date.

Custom Fields will appear in all places that regular transaction fields appear, including on Coversheets, as Autofill Tags, and in downloads. They'll also be searchable in either the Transaction Date Range Search or Global Search areas.

Master admins can create new Custom Fields by going to Admin / Settings , then clicking [Custom Fields] from the left menu.

## Keep Contact Roles on transactions accurate and up to date

Keeping a clean list of suggested *Contact Roles* helps your team quickly and accurately categorize *Contacts* they add to transactions. The *Manage Contact Roles* page allows master admins to update or hide inaccurate *Roles* to clean them up on existing transactions and prevent them from being suggested in the future.

## Ensure contact info on transactions is clean and up-to-date

Adding contacts to transactions gives your team at-a-glance access to contacts' information, and allows for effortless [single-click messaging](#) and [contact sharing](#).

The new Contact Management tool helps you ensure those contacts are both seamless to add and error-free. Here's how:

- **Prevent inaccurate contacts from being recommended**

Make sure your team is adding the correct and most up-to-date information for contacts by ensuring the list they're pulling from is clean and updated.

You can now hide contact information that has been added incorrectly in the past or that is outdated. Hiding inaccurate contacts will ensure those contacts are not recommended to your team when they're adding contacts to transactions in the future, leading to more error-free contacts on transactions.

The screenshot shows the Pipeline Contacts management interface. The top navigation bar includes 'Transactions', 'Tasks', 'Unassigned', 'Unreviewed', 'Reports', and 'Reference'. The main content area is titled 'Contacts' and includes a search bar with 'george' entered. Below the search bar is a table of contacts. The table has columns for 'Name', 'Transactions', and 'Last Added'. The first contact is 'George Jetson' with 9 transactions and a last added date of Jan 25, 2023. The second contact is 'George Leonardo' with 1 transaction and a last added date of Apr 18, 2023. A red arrow points to a 'hide' icon in the table.

Name	Transactions	Last Added
George Jetson	9	Jan 25, 2023
George Leonardo	1	Apr 18, 2023

- **Update incorrect contacts across transactions**

In cases where it's important for incorrect contact information to be updated on the transactions where that inaccurate contact information exists, you can now correct the error across all transactions at once.

[Learn more about Managing Contacts →](#)

Start updating with just a click

Just a friendly reminder (here and on hover of the Edit Transaction link) that you can get to the Edit Transaction page mouse-free by clicking **Ctrl+Shift+E** while viewing the transaction you'd like to edit.

Instantly know when a date rule has been set

Task that have had a due date rule applied, but whose trigger date has not yet been entered, will

now have a visual placeholder in place of the missing date. That placeholder will instantly let you know that a rule has been set, but not activated by its trigger date yet.

The screenshot shows a web application interface for managing a real estate transaction. On the left is a sidebar with navigation links: View Transaction, Edit Transaction, Upload Docs, Assign Docs, New Offer, Transaction History, Received Emails (0), Download Transaction, and Manage Commissions. Below these is a 'Checklists' section with a '+ 17%' progress indicator. Under 'Listing Tasks', there are several items with checkboxes and dates: 'Order Photography' (5/8), 'Add Seller as Contact' (5/8), 'Add Listing to MLS' (-/-), 'Add Home Photos to MLS' (-/-), 'Add Home Tour Video to YouTube', and 'Send Intro Email to Seller'. A red arrow points to the '-/-' date for 'Add Listing to MLS'. The main content area is titled '0823 May Street' and shows transaction details: Status: Pending, MLS #: 08230823, Label: Residential, Side: Listing, Location: Bluffington. It also includes sections for Seller & Buyer, Sale & Commission, and More Info.

## Message template scheduling

Save time and avoid oversights by auto-generating custom scheduled messages when transaction milestones are met.

You no longer need to track when messages need to be sent based on activity on a transaction. The system will now do that for you.

You can now set your *Message Templates* to automatically generate scheduled messages whenever the criteria you specify is met on a transaction. Trigger messages based on transaction dates being met or checklists tasks being completed. Once the milestone you specify has been met on a transaction, you'll be notified via email that a message has been generated for that transaction, and that it's waiting for you to review and send in your *Scheduled Messages* queue.

[Learn how to Schedule Messages Using Message Templates →](#)

## Transaction message scheduling

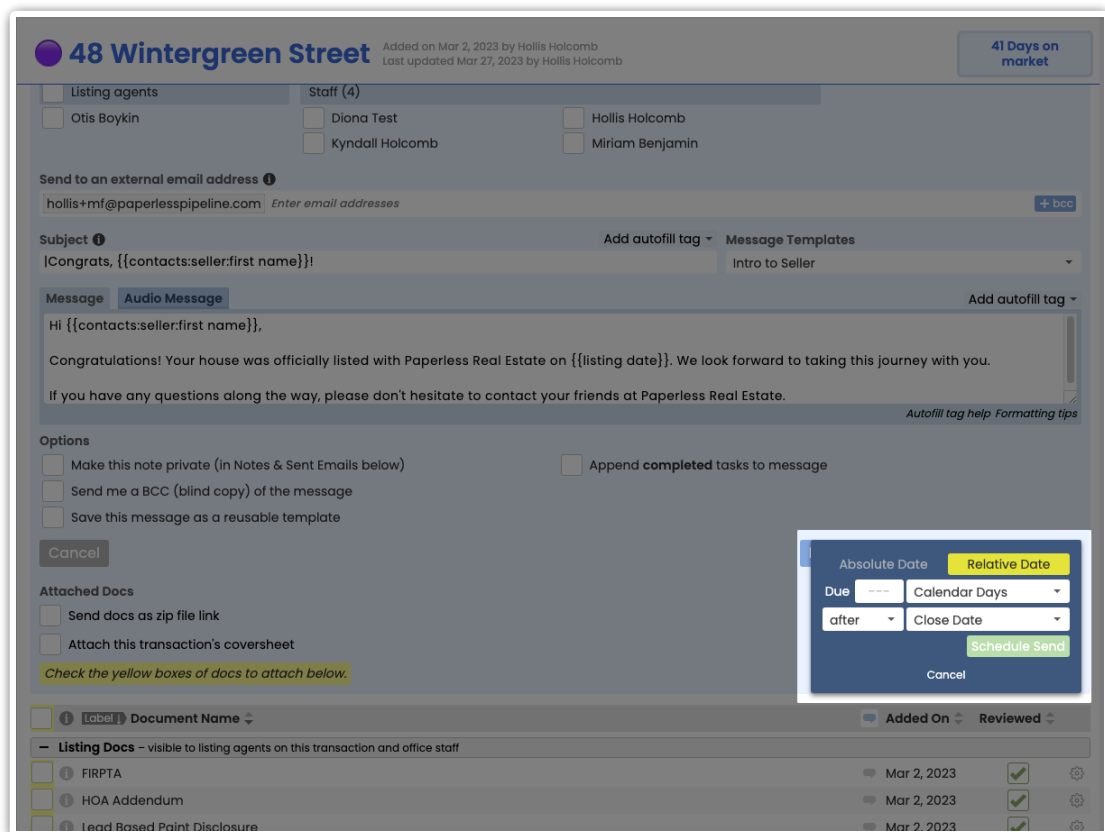

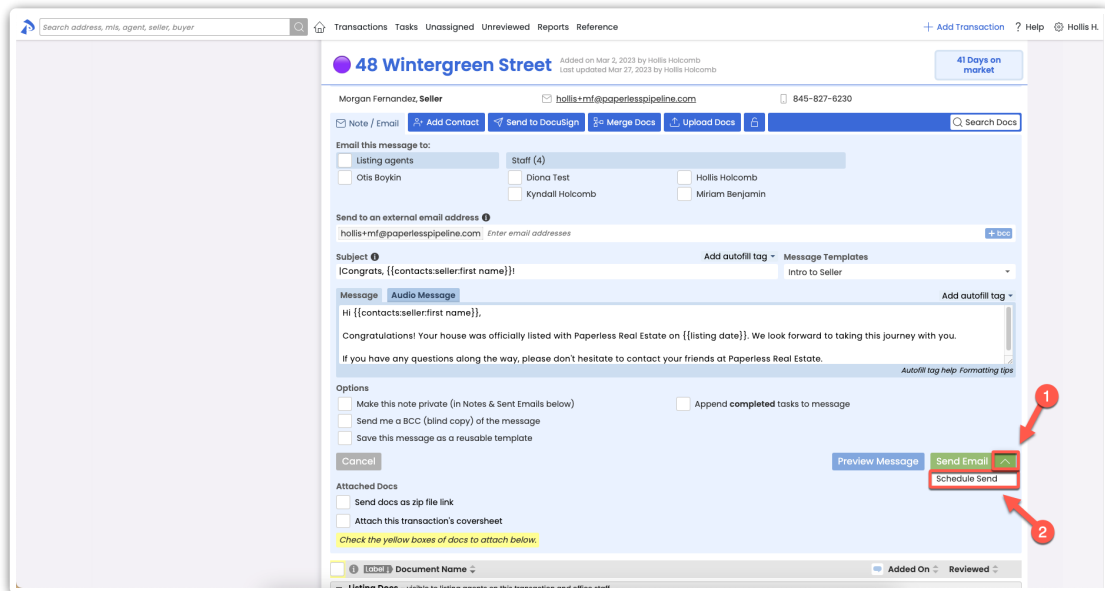

**Draft now. Automatically send later.**

When drafting a message on a transaction, you now have the option to schedule that message to be automatically sent at a later date and time.

To schedule a message, draft your message as you normally would, click [the down arrow]

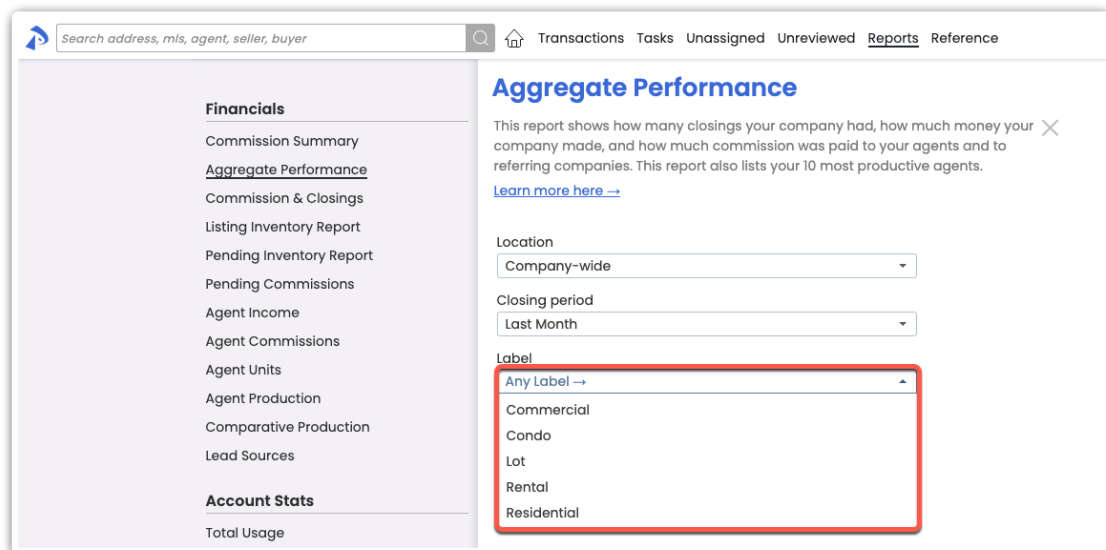

attached to the Send button, then select [Schedule Send]. Messages can be scheduled for an absolute date and time (e.g., April 22nd at 2pm ET), or they can be scheduled relative to a date on the transaction (e.g., 2 days after *Close Date*). Messages will automatically be sent when the schedule criteria is met, then appear on the transaction in the *Notes & Sent Emails* section, as usual. Note that all send times are in Eastern Time.

### Fine-tune precisely which tasks to send to your external calendar

Whether you need to keep an eye on tasks that contain a certain phrase in the task name, tasks that are related to a particular transaction, or tasks where a specific agent has been *@Mentioned*, you can now sync tasks to your calendar based on any custom search you run on the *Tasks Page*. Enter your search criteria in the *Search* section, click [Search], then click your desired calendar link.

And keep in mind that you can set up more than one sync. If you do, set each synced calendar as a different color for easy recognition.

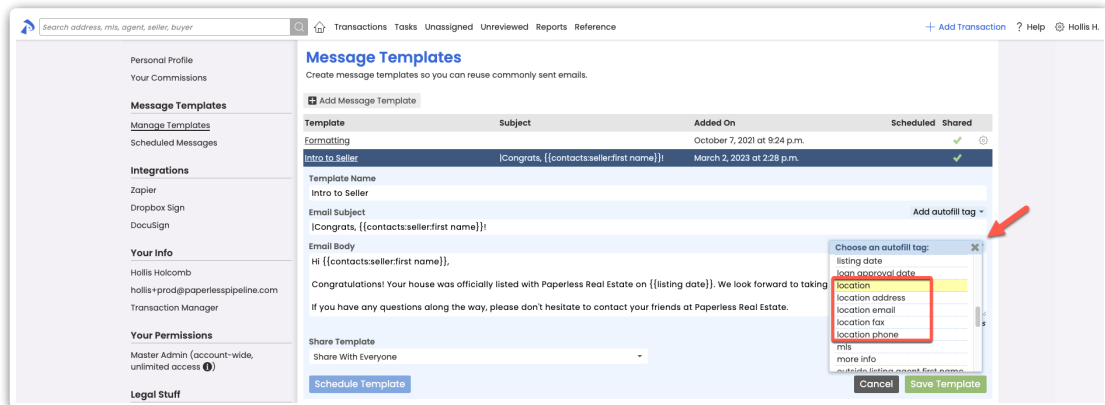

### Include location details in your message templates automatically

*Location detail Autofill Tags* allow you to automatically reference a transaction location's details in your pre-defined message templates. The new *Autofill Tags* reference:

Sends docs out for DocuSign signature faster and easier

#### Short version:

You can now send docs out for DocuSign signature directly from within Paperless Pipeline. Re-connect to DocuSign from your *Personal Profile* page, then when you send docs for signature from *Reference* or transactions, you'll do so without leaving Pipeline. Continue to view executed docs in DocuSign or import them back into Pipeline from *Unassigned Docs*.

#### Details:

You can now send docs out for DocuSign signature directly from within Paperless Pipeline, saving you the time and effort of having to send them to DocuSign, then visit DocuSign to send them from there.

To get started, you'll need to login to DocuSign from within Pipeline to re-establish the connection between Pipeline and DocuSign. Here's how:

- 1 Click your name in the upper right corner of Pipeline, then [Personal Profile].
- 2 Click [DocuSign] from the *Integrations* section of the left menu.
- 3 Click [Get Started], then follow the prompts to connect to DocuSign.
- 4 Then, when it's time to send a doc for signature, click [Send to DocuSign] from transactions or from the *Reference* page, as you always have.

You'll be directed to specify your signers and signature fields, directly from within Pipeline.

Once your sent docs are fully executed, as before, you can either view them in DocuSign, or import them back into Pipeline from the *Unassigned Docs* page. In the near future, those docs will be drawn back into Pipeline automatically.

## Copy recipients privately when sending messages from within Pipeline

You can now add BCC (blind copy) recipients when sending message from within Pipeline. Click the BCC option to the right of the *Recipients* section to activate the field for any message.

## Download a custom list of users

The download option on the *Manage Users* page will now download whichever users are included in your current set of results. This will allow you to include or exclude inactive users or download a list of specific users, saving you from any filtering after-the-fact. To download, from *Manage Users*, Search, filter, or use the existing list of users, then click [Download Users] and follow the prompts.

## Assess agent Pending performance in a single report

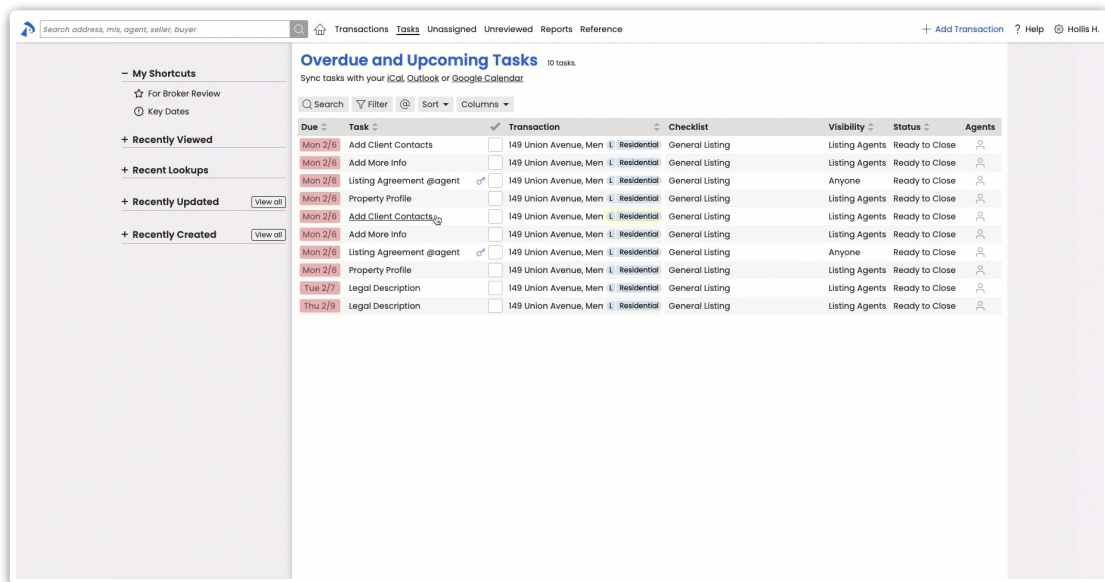

You can now report on an agent's Pending commission totals when you need to assess their productivity based on Pending transactions. With the new Transaction Status option on the *Agent Income* report, you can run the report based on Closed or Pending transactions. From the *Reports* left menu, select [Agent Income], then select whether you'd like to view Closed or Pending transactions.

## Find your task instantly when clicking from the Tasks page

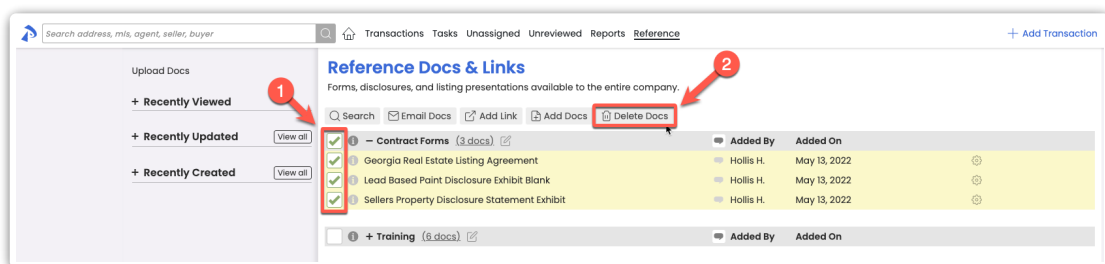

When clicking a task on the *Tasks* page, the system will now scroll straight to the task on the transaction, and highlight it so you don't have to search for it.

Note that you need to have *Checklist Scrolling* turned on for the scrolling part of this feature to work.

## Save time by bulk deleting obsolete library items

Have obsolete material on your *Reference* page that needs to be removed or updated? You can now bulk delete multiple *Reference Docs* in a single action. Select multiple docs by checking each doc individually or by checking a category of docs. Then click [Delete Docs].

## Save time by managing master admin access directly in Pipeline

Master admins may now fully manage the addition or removal of other master admins directly from *Manage Users*. Who is authorized to make such changes has not changed, only the ability to perform the changes directly from within Pipeline, has.

To add a master admin, an existing master admin can visit the desired user's profile, then check "Make master admin" from the "Account-wide Permissions" section.

To remove a master admin, an existing master admin can select the desired user's gear icon from the Manage Users list, then "Remove master admin"

## Make adding checklists to transactions easier by filtering out unneeded location-specific checklists

If your office has a need to only allow checklists that belong to a transaction's location to be added to that transaction, you can set your account accordingly.

This limitation is typically useful when you:

- Have more than one location
- Your checklists differ based on which location(s) they belong to
- You want to reduce the clutter of OR visibility to the checklists in the other location(s).

By default, all checklists are add-able to all transactions, regardless of the checklists' location. If you need to restrict that to only allow checklists from the transaction's location to be added, from [Company Settings](#), uncheck "Show checklists from all locations in the Add Checklists dropdown menu" then Save. The setting can be changed at any time if your needs change in the future.

As always, feel free to [setup a call](#) → if you ever have any questions about the setup of your checklists or feel they might benefit from a tune-up.

## Know a completed task's original due date at-a-glance

The due dates of tasks will now continue to be displayed even after they have been marked as complete, saving time from hovering.

## COMMISSION MODULE

## Determine whether agents have met their cap at-a-glance when pending transactions need to be considered

If processed *Pending* transactions should be considered when determining whether agents have reached their commission cap, you can now set your account to consider them. On the [Company Settings](#) page, check *Display Pending transaction totals in the year-to-date commission threshold section*, then Save.

The screenshot shows the 'Company Settings' page. In the 'Financial Settings' section, the checkbox 'Display Pending transaction totals in the year-to-date commission threshold section' is checked and highlighted with a red box. A red arrow points to this checkbox. A tooltip next to it states: 'Check this box if, during CDA generation, you want the system to display your agents' Pending Transaction totals in the YTD Commission Split Threshold section. If unchecked, only Closed Transaction totals will be displayed.'

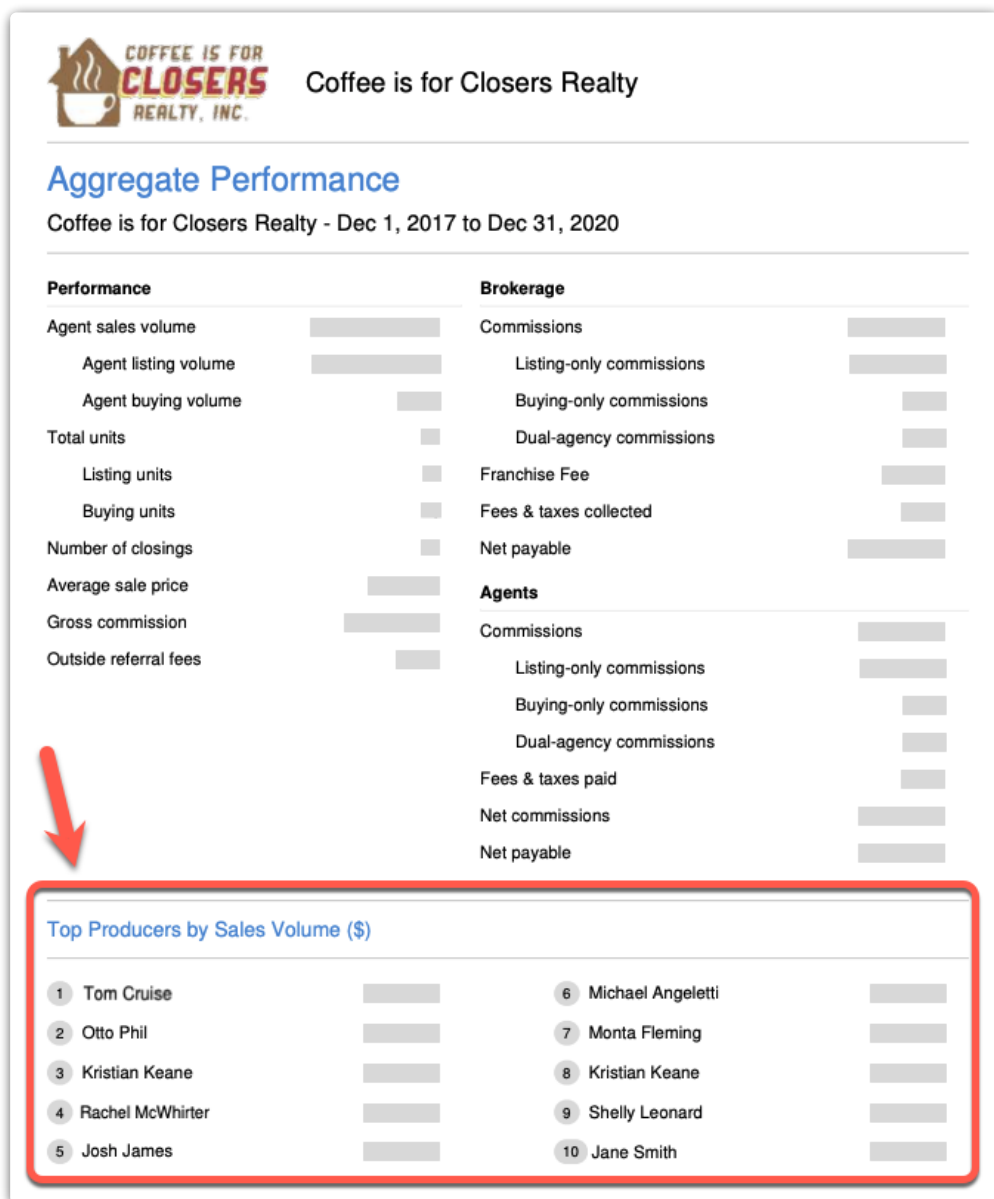

If enabled, when you're managing commissions, you'll see both **Closed totals** and **Closed+Pending totals** to help you determine whether a cap has been met.

The screenshot shows the 'Broker / Agent Commission Disbursement' page. It displays two sections for commission distribution: 'Distribute Listing Commission' (total \$2,468.36) and 'Distribute Buying Commission' (total \$944.32). On the right, a table titled 'Charles Agent - YTD figures (Jan. 27, 2020 to Jan. 26, 2021)' shows 'Agent performance' metrics. A red box highlights the 'Closed + Pending' column in the summary table, showing values for 'Commission split threshold info' and 'Commission totals before this transaction'.

	Closed	Closed + Pending
Agent's current split:	75%	
Commission to brokerage before this transaction:	\$2,325.00	\$2,325.00
Next commission split threshold:	Not specified	
Agent start date:	Jan. 27, 2021	
Commission totals before this transaction	Closed	Closed + Pending

Agent gross commission:	\$2,325.00	\$2,325.00
Agent net commission:	\$2,325.00	\$2,325.00
Agent gross in-house referral commission:	\$0.00	\$0.00

Fully integrated document signing is here!

Pipeline is now integrated with [HelloSign](#) providing you a smooth, simple process for requesting signatures directly from Pipeline transactions and the *Reference* page. Once your Pipeline account is connected to your paid HelloSign account, you'll see options to send docs for signature, send reminders, cancel, and check the status of any requests you've sent from Pipeline. Once docs are fully executed, they'll automatically arrive in *Unassigned Docs* where they can be assigned via the

## Relate a single checklist to multiple Locations and Transaction Labels

Instead of relating a checklist to either **one** or **all** *Locations* and *Transaction Labels*, you can now relate a single checklist to **multiple** *Locations* and **multiple** *Labels*. This new option:

- Allows you to set a single checklists to be automatically added to transactions in multiple *Locations* and with multiple *Labels*
- Allows you to give checklist-related permissions to a single checklist for admins in different *Locations*
- Helps organize and streamline your checklist setup (since you no longer need multiple checklists to represent multiple *Locations* and *Labels*).

For consistency and accuracy, we've updated all instances of the term "Selling Agent" to "Buying Agent" throughout the system. If you used any "Selling Agent" auto-fill tags in any of your message templates, they'll still be honored.

## Insert contact info with a single-click when managing commissions

Inserting contacts to receive deductions or co-op commissions while managing commissions is

now as easy as a single click. From the Fees & Deductions and Co-op Brokerage sections, click the people icon in the lower right corner of the field to quickly select and insert contacts from the transaction.

## Find contacts by their company name

The new "contact-company" global search option allows you to search for contacts based on their company name.

Cover Sheets can now include address, phone, etc.

The address, phone number, fax number, and email address of locations can now be displayed on coversheets. Access these details from the Admin menu under Manage Locations by clicking the gear icon next to a location, then Edit Location. If you subscribe to the Commission Module, you've already been enjoying this feature since those location details were already set for any locations that have CDA settings set...they've now just been moved under Edit Location.

The screenshot shows the 'Manage Locations' page. A table lists two locations: 'Bluffington Team' and 'Paperless Real Estate'. The 'Bluffington Team' row is highlighted in yellow. A gear icon next to the 'Bluffington Team' row is highlighted with a red arrow, and a dropdown menu is open, showing the 'Edit Location' option selected.

Enhance your account's security with two-factor authentication

Two-Factor authentication is an optional setting that adds an additional layer of security to your Pipeline account. When two-factor authentication is enabled on the [Company Settings page](#), all users that log in to your company's account will be required to provide the security code emailed to them in order to successfully login. Users can opt to have the system remember their device for 30 days, and admins can opt any individual user out of two-factor authentication from the user's Manage Users profile.

### SEARCHING & FILTERING

Assess your company's performance based on rolling 365 days All reports and Transaction List searches now offer a "Last 365 Days" option. Combine this new option with all the existing search and filter options to target and view the exact data you need to see.

The screenshot shows the 'Transactions' search interface. On the left, there are sections for 'Add Transaction', 'Import Transactions', 'My Shortcuts', and 'Shortcuts'. The main area displays a search bar and a table of transactions. A dropdown menu is open, showing 'Searching by Close Date' with options for 'Month Ranges' (Last Month, This Month, Next Month) and 'Year Ranges' (Last Year, This Year, Next Year, Last 365 Days). A red arrow points to the 'Last 365 Days' option.

### ADMIN CONTROLS

Never forget to update agents' commission info on their anniversary. If you'd like admins to be automatically reminded to update agents' commission split information on their anniversary, head over to [Company Settings](#) and check "Email admins agent anniversary reminders". When checked, location and master admins will receive an email reminder 5 days before each user's Start Date anniversary.

**No confusion about when New Offers can be created** The option to add a new offer has been removed until it's an appropriate time. If you have the "Allow New Offer" feature enabled in your account, going forward, the New Offer option will only show on the left menu of transactions if that transaction is in a Pending or later status. That way, agents won't accidentally add a new offer without first entering the original offer into the main transaction.

[Learn how to Create a New Offer here →](#)

**Associate document names with labels and categories once. Reap the benefits forever** Each time a document is added to a transaction, it can now take on the doc label and permission category pre-associated with the document's name. Pre-associating labels and categories to doc names will save your team the time of having to set them manually as each doc is added.

[Learn more about Setting Up Standard Doc Names here →](#)

**For offices that don't track compliance in Pipeline, remove Review from your view** If your office doesn't track compliance in Pipeline (e.g., TC offices, Teams, etc.), you can now disable the Document Review feature to remove the unneeded fields and extra effort involved in marking docs as reviewed. To turn off review, uncheck "Enable Reviewed Docs functionality" on the [Company Settings](#) page.

## PRO TIPS & SHORTCUTS

**Quick-select all docs in a category when sending docs** When sending a message from within Pipeline, quickly select all docs within a category by holding down the [Shift] key on your keyboard, then clicking any doc within the category. All docs in that category will be selected. You can individually deselect any that shouldn't be sent or [Shift]+click again to deselect all docs in the category.

### LOOK & FEEL

**Style refresh is now even fresher:** We've heard your feedback, both good and bad, and have made a few tweaks we're confident you'll be thrilled with! Pipeline has still retained the clean look and feel of the previous refresh, but we've refined it to enhance distinction and focus where warranted. This new version should be even more clear, clean, and easy on your eyes than before.

Also, if your account is utilizing the "Light" theme and the distinction between elements within a page is not significant enough for you, **be sure to try out the dark theme** to see if it's more to your liking.

**Contact roles bolded for quick identification** Contact roles are bolded allowing you to quickly locate contacts of a certain type.

**Identify master and primary location admins at-a-glance** Identify Master Admins and Primary Location Admins more easily on the Manage Users list by viewing their new M and P icons.

**Find agents' transactions based on their side** New "listing agent" and "selling agent" search options have been added to the global search bar allowing you to find transactions for an agents, only when they are on a certain side of the transaction. To run the search, select "listing agent" or "selling agent", type the agent's name or email address, then hit [Enter] on your keyboard.

[Learn more about Searching & Filtering Transactions here →](#)

**View tasks based on their status or side:** New "Status" and "Side" filter options allow you to find tasks based on the side of the transaction represented and/or the status of the transaction.

[Learn more about searching and filtering tasks here →](#)

**Store your custom Task & Unreviewed searches for instant access later** You've told us how much you love saving your frequently-run *transaction* searches. Now you can create shortcuts for Task & Unreviewed searches, filters, and sorts, too! After running a Task or Unreviewed search or sort in Pipeline, click "Add Shortcut" to save your custom search to be run instantly from your Shortcuts menu on the Home, Tasks, and Unreviewed pages.

"Agent-checked" & "Your @ Tasks" are now combinable with other filters: You can now quickly access tasks agents have indicated they've completed and tasks where you've been @mentioned from the Filter dropdown menu on the Tasks page. That means you can combine those filters with all other task filters to help you hone in on the tasks you want to see.

And as an added bonus, as mentioned, you can now save task filters as custom shortcuts. That means you can have instant access to your agent-checked and @mentioned tasks from your home page!

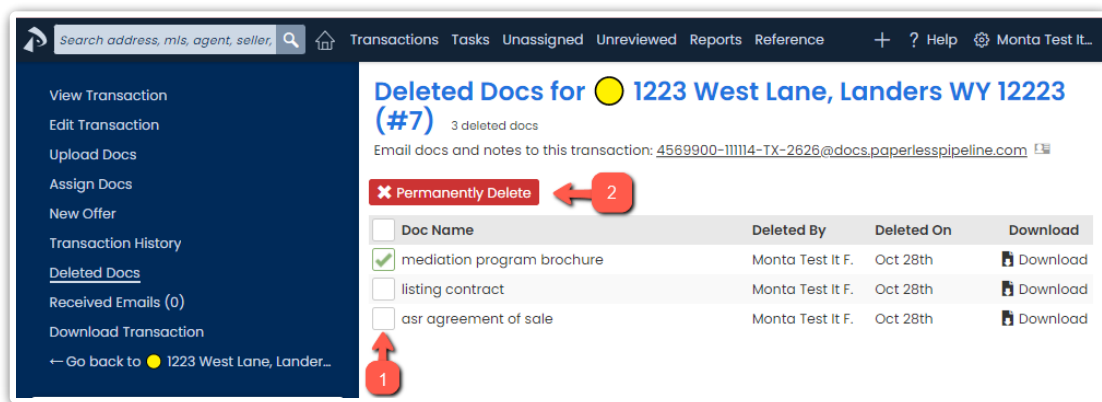

## ADMIN CONTROLS

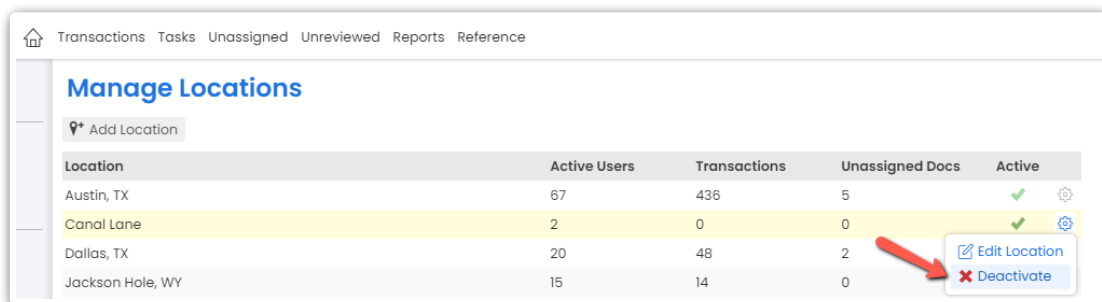

**Start managing commissions whenever you're ready.** You now have 100% control over Paperless Pipeline's Commission Module on your account. This means you can activate the Commission Module without having to contact Support or fill out additional forms. Check it out from the left menu of Admin/Settings under the Add-ons section.

[Learn more about the Commissions & Reporting Module here →](#)

**Fully delete docs that need to be inaccessible:** Deleted docs that need to be fully removed from the system because they contain sensitive information or otherwise need to be inaccessible can now be removed. Master admins can click "Deleted Docs" from the left menu of Transactions and Unassigned Docs, then either bulk or individually permanently delete the docs from there.

**Move inactive locations out of your team's way.** Deactivate locations no longer in use so you and your team can focus on the data that matters. Transactions and users can not be added to deactivated locations, and any transactions that may exist in deactivated locations will be grayed out to indicate their inactive state. Visit Admin | Manage Locations and click the gear icon to deactivate a location.

**Fresh, new look:** Pipeline has gotten a facelift! You'll still see all the features you know and love in their same places, but with updated styling, coloring and other modern enhancements. Take a look around to check out all the new feels.

**Bump "Calendar Day" due date calculations to the next business day!** In addition to automatically calculating task due dates based on calendar days or business days, you can now calculate due dates by calendar days, but bump the due date to the next business day if it falls on a weekend. ## COMMISSION MODULE

**Manage off-the-top deductions:** Deductions can now be taken off-the-top (OTT) of commissions (before broker/agent splits) when managing commissions on a transaction. This will allow the broker and agent gross commissions to consider those deductions and accurately reflect their true amounts. These OTT deductions can be a flat dollar amount or based on a percentage of sales

price or gross commission. Like other deductions, you can set these OTT deduction amounts to have default values or enter them at the time of CDA generation. OTT deductions may be paid to the broker, agents, or external recipients and will be reflected on all appropriate reports.

The screenshot shows the 'Manage Commissions' interface. At the top, there's a navigation bar with 'Transactions', 'Tasks', 'Unassigned', 'Unreviewed', 'Reports', and 'Reference'. Below that, the 'Manage Commissions' title is displayed. The main form area is divided into sections: 'Escrow / Title' (with fields for Escrow / Title Role, Company / Address, Name, Email, Phone, Fax / Other), 'Sale Info' (with fields for Buyer's Name, Sale Price, Commission Basis, Listing Side, Commission, Referral Commission, Special Fee, and a dropdown for 'Enter off-the-top deductions'), and 'Broker / Agent Commission Disbursement'. A red arrow points to the 'Enter off-the-top deductions' dropdown menu.

[Learn more about Off-the-Top \(OTT\) Deductions here →](#)

**Client Fee details re-positioned on CDAs:** When client fees exist on a CDA, they will now be itemized in the Commission Disbursement Authorization section and reflected as a single payable amount in the Payables section.

The screenshot shows a 'Commission Disbursement Authorization' form for 'Coffee is for Closers Realty'. The form includes the following information:

- Property Address:** 123 Main Street
- Buyer:** J. Smith
- Sale Price:** \$350,000.00
- Gross Selling Commission:** \$10,500.00 (3% of sale price)
- Transaction Gross Commission:** \$10,500.00 to Coffee is for Closers Realty
- Transaction Fee to Coffee is for Closers Realty (paid by seller):** \$150.00 (highlighted with a red box and arrow)

The form also includes an 'Escrow' section with details for Wild Escrow, Officer: Monta, and a 'Payables' section listing 'Coffee is for Closers Realty' for \$1,696.76.

**Speed switch between \$ and % when managing commissions:** Love keyboard shortcuts that help

you breeze through your input process? When you'd like to change the mode of any \$ / % toggle field on the Manage Commissions page, include the symbol when entering the number (e.g., \$225 or 75%), and the system will switch modes automatically. Give it a try!

**No more forgotten attachments:**When sending a message from Pipeline, the system will warn you if you've mentioned you'll be attaching a doc but haven't attached one.

## COMMISSION MODULE

**View itemized deductions on key reports:** Include a breakdown of deduction amounts on the Agent Income and Commissions & Closings reports by selecting the "Include Deduction Details" option when running the reports. To continue to view deduction totals only, leave the option unchecked.

[Learn more about commission module reports here →](#)

**Calculate Fees & Deductions based on a percentage:** Agent Fees, Client Fees, and Deductions can now be based on a pre-defined percentage. When setting up fees based on a percentage, specify the default amount (if applicable) along with the desired percentage basis for each fee (e.g., sale price, gross commission, distributable commission, etc). When managing commissions on transactions, your specified basis will be used to calculate the fee amount.

September 13, 2020

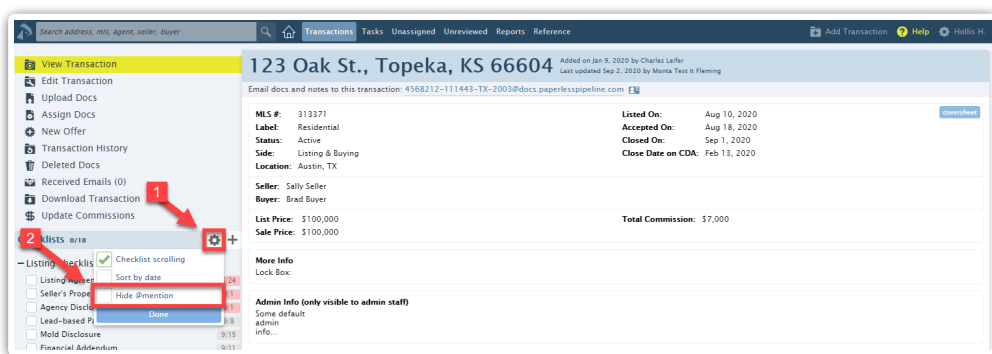

**Set tasks to only be visible to certain individuals or groups:** Let your @mentions control who sees tasks. Our new @mention visibility setting allows you to set tasks to only be visible to the person or people you've @mentioned. Use it along with the other visibility settings to make sure your team only sees tasks intended for them.

Learn how to Set Task Visibility here →

**Make task names easier to read by hiding @mention text:** Click the new option to hide @mention text from your task names, keeping them clean and easy to read. The new option appears at the top of your Tasks page and under the checklist gear icon on each transaction.

## August 6, 2020

**Mark tasks as complete faster:** Admins can now check tasks off directly from the *Tasks* page. The checkbox works the same as it does on transactions.

Learn how to check tasks on the *Tasks* page here →

**Filter tasks by agents:** View only the tasks that belong to a certain agent while managing what they need to complete. Enter the agent's name into the *Agent Name* field on the *Tasks* page to work from that ideal list.

[Learn more about filtering tasks by agent here →](#)

**View transaction tasks in the order they're due:** Find the task you're working on faster by using the new [Sort by Date] option. Check the option for the tasks to be ordered by due date on every transaction. Uncheck the option for the list to return to it's default order.

**Plus other minor fixes and improvements throughout the system.**

**July 12, 2020**

**New Home page steers you where you need to go:** Pipeline's new *Home* page now includes information that will allow you to quickly determine which area needs your greatest attention. Expandable areas allow you to view details that are critical for you to know each time you login to Pipeline.

Learn more about the new Home page here →

**Company-wide announcements:** Pipeline's new announcement feature allows you to post an announcement to be displayed on the *Home* page to all the users in your account. The reader can hide the announcement once it has been read, and it will re-appear if the message is updated. Master admins can update the message from the [Company Settings] page.

**Track incoming emails sent to transactions:** Quickly identify which transactions have received email messages during your specified time period using the new *Email Received* search option.

Save the search as a custom shortcut for regular, easy access from your *Home* page and *Transactions* page left menus.

**Track More Dates and Use Them to Trigger Checklists:** Several new date fields allow you to track important dates on transactions. Enable any of the new fields from your Company Settings

page. Once a date is turned on, it will also be available as a trigger date for automatically assigning checklists.

[Learn more about enabling date fields here →](#)

## August 13, 2019

**Send Audio Notes & Messages:** Save time by speaking your transaction notes and messages instead of typing them. Audio messages allow you to quickly record a note to yourself or send it to others. Record messages from your mobile device when you're on-the-go, from your laptop when you're in the office, or any time.

## April 22, 2019

**Bulk add doc names:** When setting up Standard Document Names, paste in your list of doc names to save time and minimize errors.

[Learn how to bulk add doc names here →](#)

**Agent communication of task completion:** Agents can indicate to admins that they have completed a task by checking the task's checkbox. Tasks checked by agents will display a special indicator which lets both agents and admins know when a task has been completed.

**Share checklists with a single action:** Need to send a list of all the tasks on a checklist instead of just one or two? Drag and drop a transaction's entire checklist onto the message area of a note or email to share its tasks.

[Learn how to drag and drop checklists here →](#)

## March 18, 2019

**Hide completed tasks on transaction checklists:** Make checklists cleaner and easier to work with by setting completed tasks to be hidden on transaction checklists. Hidden tasks can be displayed at any time with a single click.

[Learn how to hide completed tasks here →](#)

**Customize your Tasks and Unassigned Docs lists:** Display the fields that make the most sense for your workflow, and hide the fields you don't need to see. Removing unneeded fields from these pages will also increase space for the fields you do use.

[Learn to show and hide fields here →](#)

**More fields displayed on reports:** Several fields can now be viewed on designated Commission Module reports allowing you to analyze commissions and performance more easily. They include:

- View Sales Volume on the Commission Summary page
- View Listing & Selling Volume on the Commissions & Closings report
- View Client Fees on the Agent Commissions report.

**Filter Commission Module reports by transaction label:** Use the Label filter to report on commission numbers based on transaction type and generate reports that have only the data you need.

[Learn more about Transaction Labels here→](#)

January 14, 2019

**On-demand transaction reporting:** Build (and save) custom reports that pull the exact transactions you need to see. The Advanced Search area allows you to combine search and filter criteria for all the primary transaction fields, including date fields, saving you the time of manually excluding unneeded transactions.

[Learn more about Advanced Search here →](#)

September 16, 2018

**Track lead sources to measure the effectiveness of your advertising campaigns:** Record buyer and seller lead sources on transactions. View a lead source aggregate report. View lead source information on other financial reports.

[Learn more about lead sources here →](#)

August 24, 2018

**Customize your message templates with automatic (auto-fill tags):** Select from a list of auto-fill tags when creating a message template. The system will automatically replace each tag with the appropriate value from the transaction whenever you use the template to send a note from a transaction. [Learn how to use auto-fill tags here →](#)

July 30, 2018

**Copy doc comments to messages in one click:** Instantly copy your doc comments into a note or email by dragging them into the message area. [Learn how here →](#)

**Include contacts when sending a coversheet.** Now you can choose whether you'd like contacts to be included when emailing a coversheet from a transaction.

May 16, 2018

#### COMMISSION MODULE

**View Transaction Gross Commission and Franchise Fee on Agent Income Report:** The Agent Income Report now includes Transaction Gross Commission and Franchise Fee amounts, allowing you to see the total commission produced by the agent before the franchise fee has been deducted.

April 1, 2018

**View more information about an agent by hovering over their name on a transaction:** Admins can view an agent's start date, license number, and more info by hovering over an agent's name on a transaction. Agents are not allowed to see each other's information by this method.

**External recipients of email messages can see and reply to all recipients:** When external contacts who receive an email message sent from Paperless Pipeline REPLY ALL to the message, all recipients on the message will now receive the reply. Previously, external recipients were not shown internal recipients of a message and thus could not include them when replying.

**Plus dozens of fixes and improvements.**

[Read the blog post for more info →](#)

#### COMMISSION MODULE

**Receive assistance with multi-tier commission splits:** When entering commission information for a transaction, you will receive a warning if any agent is about to surpass their commission split threshold and needs to be processed on multiple tiers of splits.

**Look up agents' year-to-date and previous month's commission figures:** Admins can access agents' YTD and previous month's commission figures directly from the Reports section. Agents will continue to receive their YTD and previous month's commission figures monthly by email for offices that have turned on that setting.

**View in-house referral commissions during CDA generation:** An agent's in-house referral commission figures will now be included in the YTD totals box displayed on the right hand side

during CDA generation.

**Plus dozens of little fixes and improvements.**

[Read the blog post for more info →](#)

October 8, 2017

**Format notes and send structured emails from transactions:** Format transaction notes and messages with bolded text, italics, bulleted lists, etc. Pipeline now supports the popular and easy-to-learn Markdown formatting method to give you better control over the appearance of your transaction notes.

**Private Notes!** Keep transaction notes visible only to sender and recipients. When adding a transaction note, you can now mark it as private with a single click. A private note is only shown to its author (i.e. sender) and recipients in the Notes & Sent Emails section of the transaction. Previously, all notes were shown to all users who had access to the transaction.

**Copy and paste multiple tasks in one shot when setting up checklist templates** Paste in a list of tasks with one click to save time and minimize errors when setting up checklist templates.

**Hide checklist completion percentages from agents to simplify agents' view of transactions:** Uncheck the company-wide setting "Show checklist completion percentages to agents" to prevent your agents from seeing checklist completion percentages across their transactions. This can eliminate agents' confusion if the percentages reflect tasks that agents are not able to view.

**Plus scores of small improvements.**

[Read the blog post for more info →](#)

## COMMISSION MODULE

**Drill down Commission Summary data:** Click figures on the Commission Summary report to see the Pending or Closed Transactions that were used to calculate those figures.

**And scores of small improvements.**

[Read the blog post for more info →](#)

June 29, 2017

**Recover deleted docs:** Master admins and document deleters can recover docs deleted from transactions as well as unassigned docs. Click the "Deleted Docs" option from the left-hand menu of the transaction or the Unassigned Docs section to locate and download the deleted doc. Then

re-upload it to the system if needed. [Learn how this works here →](#)

**Keep your computer logged in for 7 days:**When logging in to Pipeline, you can now select the option called "Stay logged in for 7 days". For security, be sure to only use this option from your own computer and own secure network. [Learn more here →](#)

**Buyer and Seller email addresses included in transaction downloads:** Need to send an email to buyers or sellers? Download transaction spreadsheets to access email addresses of buyers and sellers. [Learn how to download spreadsheets here →](#)

**Open next/previous document previews with new keyboard shortcuts:**Now you can use Shift + ↑ and Shift + ↓ (Shift plus up or down arrow on your keyboard) to quickly open the preview of the previous or next docs when in any document list.

**New high-contrast color theme:** Pipeline's new high-contrast color theme offers distinctive lines and colors, helpful for color-blind and visually impaired people. [Learn how to apply the new color theme to your account here →](#)

**View new offer status right from its original transaction:** Hover over a transaction's new offer to instantly see that offer's current status and creation date.

**And scores of small improvements.**

## COMMISSION MODULE

**Filter the Pending Commissions Report by acceptance date.**

**Commission Disbursement Authorizations and Financial Info now saved within monthly backups and downloaded transactions:** Monthly backups and downloaded transactions will now include CDAs and all other financial info.

**And many small improvements.**

April 2, 2017

**Quickly search a transaction's documents:**There's a new search option above the documents area of every transaction. Use it to instantly locate a document.

**And many more small improvements.**

[Read the blog post for more info →](#)

## COMMISSION MODULE

**Agents can receive a monthly commission report that summarizes their year-to-date and last month's production numbers:** Turn this feature on or off from the Admin Settings page using the checkbox "Email monthly production summary to agents".

**Generate reports based on any date range:** From a report's "period" drop-down list, select the option "Custom Date Range", then specify the desired start and end dates.

**Search transactions based on whether they have commission data entered or not:** From the Transaction's page, go to the Advanced Search section and use the new "Commissions" filter.

**The "Generate CDA" option has been renamed to Manage/Update Commissions:** How you enter a transaction's commission data hasn't changed. Just the menu option now appears as either Manage Commissions or Update Commissions.

**Rename franchise fee to match your company's naming conventions:** If your office pays a franchise fee but calls it by a different name, now you can specify that name.

January 24, 2017

**Admins, you can now share your saved message templates with agents.** Previously you could only share with other admins.

**Easily scan transaction notes:** Transaction notes are now shown collapsed. This will make it easier for you to scan them quickly. A green triangle at the right of a collapsed note will let you expand that note.

**Search transaction notes:** On the top right corner of the Notes area, there's now a "search notes" box allowing you to quickly locate notes that match a search phrase.

**Easily set up standard doc names from tasks and tasks from standard doc names:** Now when creating checklist tasks, the system will auto-suggest matching document names. Similarly, when creating standardized document names, you will see matching task names being automatically suggested.

**Know if your attached files will be emailed as links or as attachments:** Whenever you attach more than 5 megabytes worth of docs to your emails, the system always sends those as downloadable links rather than direct attachments. Now the system will warn you whenever your selected docs will be sent as links.

**And several general improvements.**
