

Your eSign Plan

With Pipeline eSign, you're only charged for signature requests your team actually sends. It's flexible, easy to manage, and built to scale, whether you're a small office, a large office, or growing fast.

Introduction

Your Pipeline eSign monthly plan gives you full control, plain and simple. There are no contracts and no per-user fees.

Set a monthly spending limit to ensure you never spend more than your budget.

You can track usage in real time, adjust your monthly limit, and see a full history of requests sent across your company.

How It Works

Set Your Monthly Limit

Choose how many signature requests your team can send each month. This sets your maximum monthly spending limit.

It's not a flat fee, just a cap.

Unlimited Signers & Docs Per Request

Each signature request can contain any number of docs, signers, and signatures.

Pay Only for What You Use

You're billed in blocks of 10 signature requests. You can set a high limit for flexibility, but you're only charged for what your team sends.

Example: If you set a limit of 120 requests (12 blocks) but only send 64 (7 blocks), you'll only be charged for 7 blocks. You're never charged for the 5 unused blocks.

Track Usage in Real Time

See current usage, remaining signature requests, and current spending anytime on your Pipeline

eSign page.

Change Your Limit Anytime

Need to scale up or down? Adjust your monthly limit anytime to match your needs.

Monthly Reset

Your usage resets every billing cycle. Usage starts at zero, and unused requests do not carry over. Each new cycle is a clean slate.

Track Your Current Usage

Track your company-wide monthly eSign usage to monitor requests sent and oversee costs in real-time.

Who Can Do This: Master admins whose company is subscribed to Pipeline eSign.

To track monthly eSign usage:

1 Go to Your Pipeline eSign Page

- Click your name in the upper right, then select [Admin / Settings].
- From the left menu, select [Pipeline eSign] under *Add-On Modules*.

2 View Current Usage

- View your team's usage for the current billing period.

The screenshot shows the Pipeline eSign dashboard. On the left, the 'Current Usage' section is highlighted with a red arrow. It displays the following information:

Max Signature Requests / Month:	120
Max Cost / Month:	\$60.00
Signature Requests Sent This Billing Period:	0
Cost This Billing Period:	\$0.00
Signature Requests Remaining:	120
Next Billing Date:	04/16/2025

On the right, the 'Change Spending Limit' modal is open. It shows a slider set at \$0.50 per request, up to a \$60.00 monthly limit. Below the slider, it indicates 'Allows 120 signature requests a month'. A green button at the bottom says 'Change Spending Limit →'. A link at the bottom right says 'Remove Pipeline eSign'.
